

Quick Review of the semester

Today we review adding and subtracting fractions. Think back, how was this for you?

Quickly, write down the steps you use to solve an adding or subtracting question. I put 4 bullets but you may use more or less. Write down steps that make sense to you.

- .
- .
- .
- .

1. $\frac{1}{2} + \frac{3}{5}$

2. $2\frac{2}{3} - 1\frac{1}{2}$

3. $3\frac{3}{7} + 1\frac{1}{5}$
